Testimonials

"I am speechless, the speech you presented in the room yesterday changed lives. I am so grateful you were a part of our conference." - *John Gaiters, President & CEO, Arkansas Fashion Council*

"Laurie was able to help our agents frame their motivations for "work" by helping us identify why we are in the service industry. She provided an opportunity for self-discovery by challenging our team to identify their own values and motivations through her tailored processes. If you or your organization are looking for a more purpose filled work-life journey, give Laurie a call. Her coaching session was engaging and interactive. We will definitely have Laurie back to work with our team again!" - *William Stuart Collier, Principal Broker, Collier & Associates Realty, Fayetteville, AR*

"Thank you Laurie for speaking words of truth and encouragement to the ladies of Sonora. Women often don't have time to reflect on why they feel they way they do about themselves. Our ladies enjoyed the morning and hearing you so much they want to meet more often and they want to hear you again." - *Lisa Williams, Director of Women's Ministries, Sonora Baptist Church, Springdale, AR*

"I specifically chose you as a speaker for the Administrative Professionals Day because I have heard you speak before. I feel that you respect your audience and you know your topic very well." - *Sandra Hancock, Fiscal Mgr Dept of Civil Engineer, University of Arkansas, Fayetteville, AR*
